GEP EARNED DESIGNATION AS A GREAT PLACE TO WORK-CERTIFIED™ COMPANY IN 9 COUNTRIES: THE UNITED STATES, CHINA, COSTA RICA, CZECH REPUBLIC, GERMANY, INDIA, MEXICO, ROMANIA AND THE UNITED KINGDOM

- Employees give high marks for GEP’s workplace culture, flexibility and support in response to the COVID-19 pandemic

Clark, N.J., Dec. 18, 2020 — GEP, a leading provider of supply chain software and services to Fortune 500 and Global 2000 enterprises worldwide, announced that it has achieved the Great Place to Work® certification in nine countries: United States, China, Costa Rica, the Czech Republic, Germany, India, Mexico, Romania and the United Kingdom.

Certification is a significant achievement. It is based on validated feedback from thousands of GEP employees gathered through Great Place to Work's rigorous, data-driven methodology, and confirms most employees have a consistently positive experience. Across the globe, GEP team members gave high marks to the company for flexibility, workplace culture and all the support provided to employees in response to the COVID-19 pandemic.

“We’re incredibly proud of all our employees’ effort to create a truly beautiful company,” said Roopa Gandhi, co-founder and president, GEP. “We founded GEP 20 years ago to be a caring company: caring for each other, caring for our clients and caring for our communities. This certification is recognition of our employees’ success at creating an inclusive, innovative, high-performing, globally integrated company dedicated to supporting each other and our communities, as well as our clients.”

In addition to GEP’s long-standing, comprehensive programs enabling employees to help address four fundamental societal challenges — hunger relief, underserved children’s education, female financial independence and the environment — GEP implemented a series of initiatives to support team members’ well-being during 2020, including:

- Instituted work from home in early March, ensuring each employee had the resources needed to succeed.
- Created a COVID-19 resource center providing safety and health resources, with details about how employees can support their families and local communities.
Hosted live monthly business updates with executive leaders and provided a platform to share stories and inspire colleagues to help themselves during such a trying time.

Orchestrated a successful pro bono program with a portal www.gep.com/covid19help/ to connect personal protective equipment (PPE) suppliers and manufacturers with front-line health care providers.

To foster greater diversity, equity and inclusion, GEP:

- Created GEP Pride, an LGBTQ+ employee resource group, to also help all employees be allies in the workplace, making GEP a more LGBTQ+ affirming workplace.
- Created the employee resource group GEP African Ancestry Network to increase representation through recruitment and workplace policies and practices.
- Launched a matching donation campaign for employees contributing to five NGOs that support communities of color.
- Partnered with Future Foundation for GEP professionals to mentor high school seniors from disadvantaged communities, about their future careers.
- Continued to support the company’s most active employee resource group, Women@GEP, which is working toward achieving gender parity, which is uncommon in a global technology company.

“We congratulate GEP on their Certification,” said Sarah Lewis-Kulin, vice president of Best Workplace List Research at Great Place to Work. “Organizations that earn their employees’ trust create great workplace cultures that deliver outstanding business results.” Great Place to Work is the global authority on workplace culture, employee experience and the leadership behaviors proven to deliver market-leading revenue and increased innovation.

About Great Place to Work®

Great Place to Work® is the global authority on workplace culture. Since 1992, they have surveyed more than 100 million employees around the world and used those deep insights to define what makes a great workplace: trust. Great Place to Work helps organizations quantify their culture and produce better business results by creating a high-trust work experience for all employees. Emprising®, their culture management platform, empowers leaders with the surveys, real-time reporting, and insights they need to make data-driven people decisions. Their unparalleled benchmark data is used to recognize Great Place to Work-Certified™ companies and the Best Workplaces™ in the US and more than 60 countries, including the 100 Best Companies to Work
For® and World’s Best list published annually in Fortune. Everything they do is driven by the mission to build a better world by helping every organization become a Great Place to Work For All™.
